Essex Centre Community Plan Implementation Strategy

1.0 Community Improvement Plan Background and Direction

The Essex Centre Community Improvement Plan builds on the Downtown Essex Centre Streetscape and Silo District Plan approved by Council in the summer of 2013. The streetscape plan introduced a design scheme for the long term reconstruction of Talbot Street and adjacent streets in the downtown core under the theme, “Essex Centre, the Hub of the County”. It also established a land use plan for the Silo District, a large town owned property in the urban centre, which is currently occupied by the former railway station, now used as a tourist information centre, large grain silos, now vacant, and the former rail corridor for the Michigan Central Railway. The rail corridor will be improved as part of the county wide active transportation system and this, in turn, will help to stimulate development of the Silo District for other active community recreational purposes.

Community participation in the development of the streetscape plan revealed that there was a need to stimulate and assist with downtown revitalization efforts on the part of the business community. A community improvement plan establishes programs for public private partnerships and for property improvements through municipal tax incentives, grants and loans within a community improvement project area.

According to Section 28(1) of the Planning Act, a “community improvement project area” is defined as a municipality or an area within a municipality, the community improvement of which in the opinion of the council is desirable because of age, dilapidation, overcrowding, faulty arrangement, unsuitability of buildings or for any other environmental, social or community economic development reason.

Section 28(1) of the Planning Act defines community improvement as the planning or re-planning, design or redesign, re-subdivision, clearance, development or redevelopment, construction, reconstruction and rehabilitation, improvement of energy

efficiency, or any of them, of a community improvement project area, and the provision of such residential, commercial, industrial, public, recreational, institutional, religious, charitable, or other uses, buildings, structures, works, improvements or facilities, or spaces therefore, as may be appropriate or necessary.

The Town may:

- acquire, hold, clear, grade or otherwise prepare land for community improvement;
- construct, repair, rehabilitate or improve buildings on land acquired or held by it in conformity with the community improvement plan;
- sell, lease, or otherwise dispose of any land and buildings acquired or held by it in conformity with the community improvement plan;
- make grants or loans, in conformity with the community improvement plan, to registered owners, assessed owners and tenants of land and buildings within the community improvement project area, and to any person to whom such an owner or tenant has assigned the right to receive a grant or loan, to pay for the whole or any part of the eligible costs of the community improvement plan, and
- Fund the costs of an environmental site assessment, environmental remediation, development or redevelopment, construction and reconstruction of lands and buildings for rehabilitation purposes or for the provision of energy efficient uses, buildings, structures, works, improvements or facilities.

Accordingly, for the designated Community Improvement Plan Project Area (CIPPA), shown on Map 1, in Section 7, of this Plan, a variety of programs to stimulate development, redevelopment and revitalization in the downtown core have been implemented.

As shown on the map, the CIPPA is located along the east and west sides of Talbot Street from the north to the south limit of the Town of Essex. The first block of Center and Victoria Streets and Fox Street are also included in the project area.

Eligible property owners and business operators may take advantage of one or more of the grant programs offered, in accordance with the opportunities and incentives set out in this implementation strategy, subject to the limitations and rules established for the administration of this plan.

The programs offered focus on community revitalization and beautification, energy efficient rehabilitation, tourist accommodation, affordable rental housing and the achievement of a better mix of land uses. The Town will work closely with the Essex Center Business Improvement Association, land owners and business operators to help make the downtown a healthy, prosperous and sustainable part of the community.

There are eight incentive programs, which are divided into two general categories:

Development Grant Programs:

- Development Permit Fees Grant Program;
- Development Charges Grant Program
- Tax Increment Equivalent Grant Program;
- Parks Levy Equivalent Grant Program;

Revitalization Grant programs:

- Façade Improvement Grant Program;
- Outdoor Café, Patio and Commercial Outdoor Space Grant Program;
- Conversion and Rehabilitation Grant Program;
- Architectural Design Services Grant Program.

- the program utilized for each application;
- the amount of grant money provided for each program;
- the financial implications to the Town and budget for the above;
- Recommendations for the next years' budget requirements.

Development Services Staff report will provide an annual recommendation on the merits of continuation, expansion or cessation of the Plan and its programs. Significant changes proposed by staff or Council to the Plan will require an amendment by by-law approved by Council. Administrative, technical changes and minor adjustments can be made without amendment.
