Closing Information:

Date: March 22, 2023
Time: 3:00.00 PM Local Time
Location: Town of Essex Municipal Offices
33 Talbot Street South
Essex, Ontario N8M 1A8

Question and Answer

Q.1 Could the Town provide clarification regarding the legal survey. Are you looking for a signed Plan of Survey which would include resetting any missing legal monument or just to have the Right of Way limits established throughout the limits of the survey?

A.1 The purpose of the legal survey is to establish right-of-way limits for use in survey and detailed design.

Q.2 Could the Town provide distances to which the topo survey should extend along the approaches of the roads as well as up and downstream from the structure?

A.2 The distances should be determined by the consultant to suit the needs of the scope of the structure's expected work. If guardrail safety improvements are recommended for the structure, then the survey distance should extend far enough based on design requirements. If all the work is based around the structure, then a survey of 25m on either side of the structure should be sufficient.
